Hi, My name is Fawwas Alghifari, I am a graduate of Information Technology from Bina Sarana Informatika University (2023), I am currently working as a Full Time Science Tutor, and am currently looking for a Full Time Job. My specializations include UI&UX Design, Product Design, manual QA/QC, Automatic website testing, and Fullstack Developer.

Education Level

University of Bina Sarana Informatika

Sep 2019 – Des 2023

Bachelor of Information Technology (GPA 3.62/4.00)

- Enhanced skills in Visual Design, Codign Interface, manual and automatic website testing.

Working Experience

Oemah Creative

Aug 2023 – Present

Tutor Sains Elementary School

Program Management & Laboratory Operations:

- Prepared and organized all laboratory equipment and chemical/physical requirements for hands-on science experiments to ensure safety and efficiency.
- Developed engaging and age-appropriate science instructional materials in collaboration with the team leader.
- Guided students in assembling experimental tools to foster critical thinking and practical problem-solving skills.

Outdoor Event Innovation & Management:

- Conceptualized and executed experiential outdoor learning programs, including interactive "Science Shows," delivering a more attractive and dynamic learning experience than traditional schooling.

Content Creation & Digital Marketing:

- Documented experimental activities and produced high-quality short-form video content (Reels/Shorts/TikTok) to showcase student engagement.
- Edited and optimized multimedia content for social media platforms to boost brand visibility and audience engagement.

Business Development & Telemarketing:

- Conducted outbound telemarketing campaigns targeting prospective schools to identify new business opportunities.
- Delivered professional pitches and presentations to school boards regarding Oemah Creative's educational value proposition.

- Facilitated and secured strategic partnerships between school administrations and external extracurricular vendors.
